17th & 18th May 2010
Oxford Belfry Hotel, Thame, Oxfordshire

Planning for a Brighter Future

CAPACITY
MANAGEMENT

PERFORMANCE
ASSURANCE

SERVICE
MANAGEMENT

z/OS
TECHNOLOGIES

Conference Highlights

The conference is an opportunity to participate in a leading event welcoming a host of end-user speakers, renowned experts and industry partners. This event offers presentations from world class experts helping to educate your team and business – planning for a brighter future.

The agenda includes three half-day workshops on Capacity Management, Performance and z/OS Technologies from Ron Kaminski, Dawn Haynes & Scott Barber and Peter Enrico, all from the USA.

There will also be teleconference sessions with Barry Merrill and Cheryl Watson.

Following the success of the panel discussion at the US CMG conference, UKCMG introduces a new panel session – Why test and why model?

The event covers both technical and service management areas and is an excellent platform for keeping abreast of IT developments. There is also an opportunity to network with industry vendors at the exhibition running alongside the conference.

The delegate registration is open and an early bird discount is available until the 9th April 2010. The delegate attendance price has stayed the same as 2009, offering excellent value for money.
